

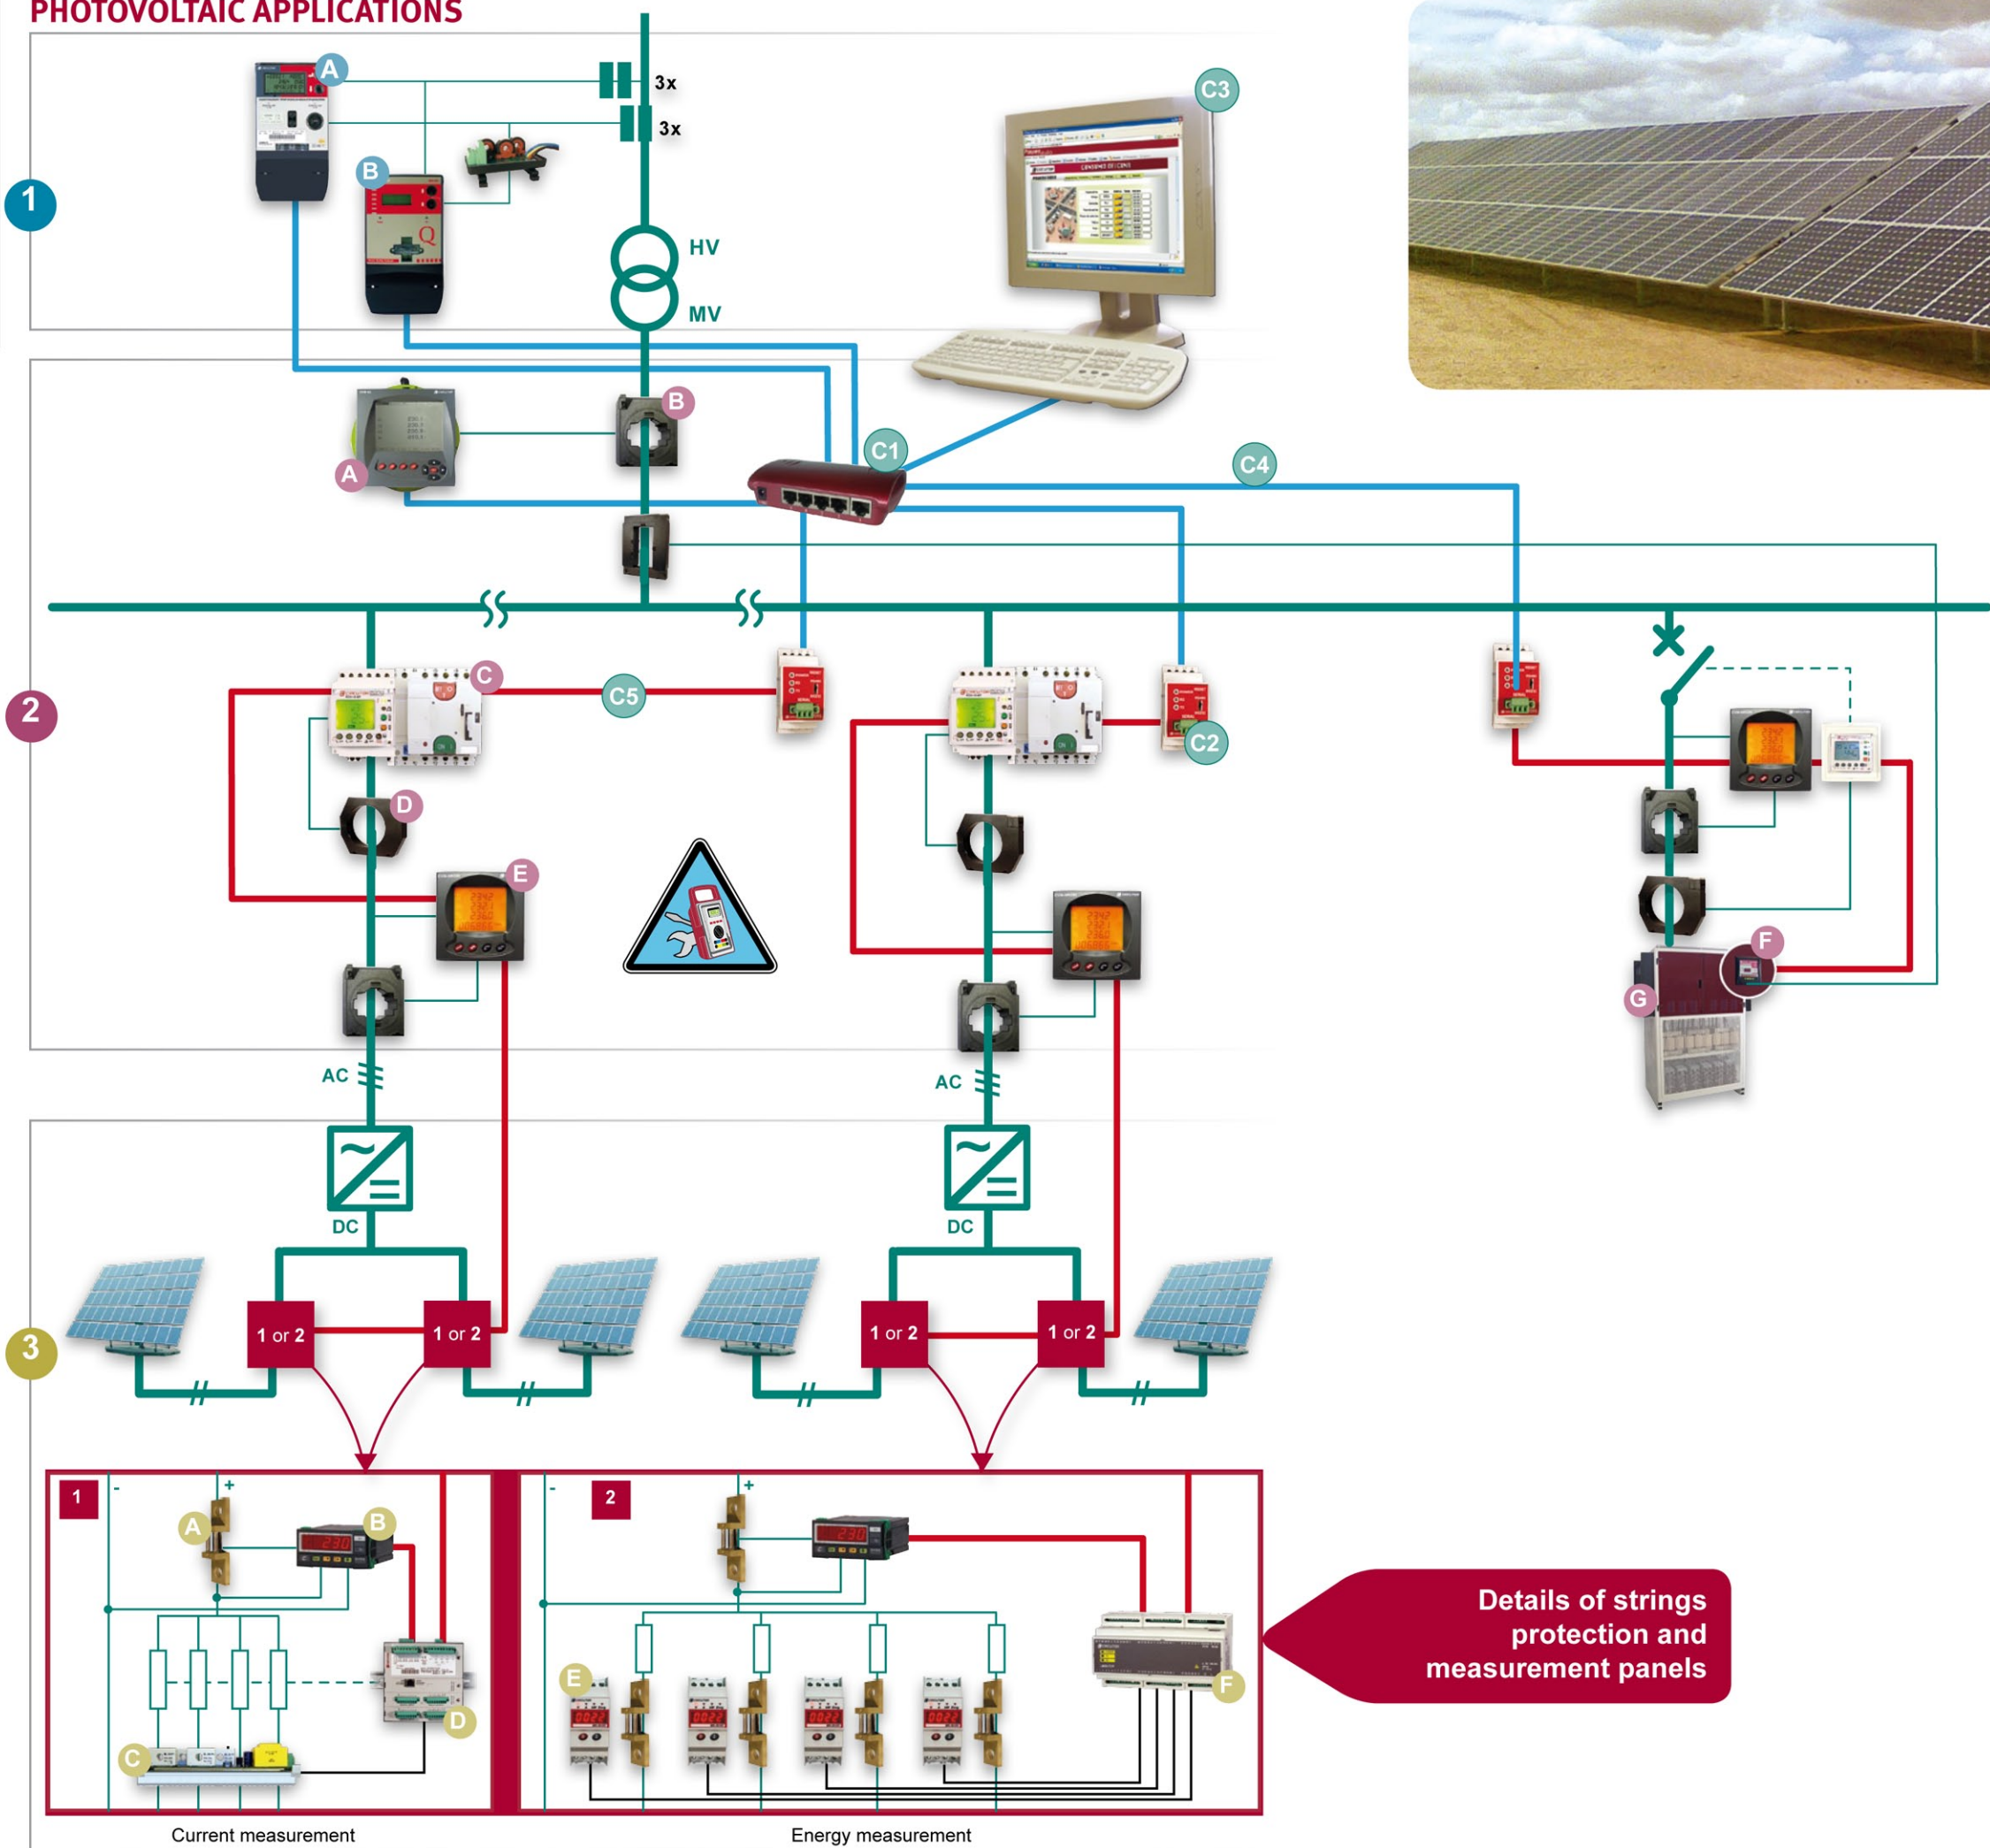

PHOTOVOLTAIC APPLICATIONS

MATERIALS LIST	
Coupling point	
1	A CIRWATT meter
	B QNA power quality analyzer
General panel	
	A CVMk2 network analyzer
	B TC current transformers
	C RGU-10C MT recloser (motorised circuit breaker MT + RGU-10C earth-leakage relay)
2	D WG toroidal transformers
	E CVM NRG96 network analyzer
	F computer power factor regulator
	G CIRVAC capacitor bank
Strings protection and measurement panels	
3	A DC Shunt
	B DH96 CPM analogic relay
	C TR-4 DC measurement module
	D CVMk2 measurement module and analogue centralizer
	E MK-30 DC energy meter
	F LM-50 impulse centralizer
Communications	
1	HUB
2	TCP2RS RS-485 / Ethernet converter
C	3 PowerStudio Scada application
	4 Ethernet bus
	5 RS-485 bus

Details of strings protection and measurement panels

See page 19
