

SECONDARY PANELS

Offices low voltage secondary panels

Design objectives

- Control of energy consumption in offices
- Leakage current monitoring
- Control of electrical parameters
- Control of distribution losses (CVM output General Panel - CVM MINI)

C1	Converter TCP2RS RS-485 / Ethernet
C2	RS-485 bus
C3	Ethernet bus

MATERIALS LIST

1	CVM MINI DIN rail network analyzer
2	TC current transformer
3	4-channel CBS-4 mutipoint relay
4	8-channel CBS-8 mutipoint relay
5	WGS toroidal transformer
6	WG toroidal transformer
