

Metartec can provide temporary, mobile, short and long term UPS hire ranging from 650VA to 1.6mVA, for protection of your power sensitive critical equipment whenever and wherever you need it.

Metartec's UPS hire

- Metartec provide a quality UPS solution on a rapid response basis ensuring your critical power supply equipment is supported without delay.
- Metartec's extensive range of UPS units can offer cover for anything from a desktop size UPS to fully operational self sufficient containers. No matter the size of job, Metartec has a UPS to suit your requirements.
- Metartec's range of single phase line interactive and double conversion UPS's are from 650VA – 10kVA and three phase double conversion start from 10kVA and continue to 1.6mVA.

UPS and Battery hire

- Metartec can also supply complete solutions that include batteries with broad scope autonomy times.

Self Contained UPS

- When space is limited Metartec use outdoor containers that are stored in locations throughout the UK and Ireland ready for immediate delivery and can be supplied from 10 kVA to 1,600 kVA.
- Our fully self sufficient containers are complete with air conditioning, ventilation and lighting systems creating the optimum environment for the UPS to deliver the best output possible.
- Metartec's UPS container is pre-assembled before arrival and comes fully configured to your specification, providing instant support that only requires power connection to be fully operational.
- Metartec's UPS's are accompanied with an appropriate service plan to suit your application and Metartec's on site engineers will be happy to provide your appointed electrical contractor with any assistance required, so you can rest assured that your critical systems are in safe hands.
