Ad Hoc Repairs & Services

At Metartec we pride ourselves in responding to our customers' needs in a timely, efficient and professional manner at all times. Metartec can provide you with all your ad hoc repairs and spare parts. Metartec are the direct link between our customers and manufacturer resulting in a quicker and more cost effective product supply.

Metartec's Ad Hoc product portfolio includes:

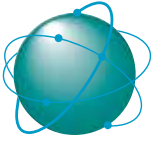

- Fans
- Capacitors
- Batteries
- Printed circuit boards
- IGBT (Insulated Gate Bipolar Transistor)

The direct sourcing of components from manufacturers, importers and distributors offers a cost saving over the elongated supply chain of larger organisations. Metartec's experience and technical knowledge, coupled with inventory, offer a viable alternative to the (OEM) organic equipment Manufacturer.

Metartec can supply a wide range of spare parts for the following brands:

AEC, Astrid, APC, Aros, AVK, Best Bori, BPC, Chloride, Claude Lyons, Converex, CPS, Emerson, Liebert, Exide, Fiskars, GE, Masterguard, MGE, ONEAC, PK, Powernetics, Powertecnicque, Powerware, Riello, Siel, Siemens, Socomec, Tamini, etc.

Further details on Metartec's products and services are available within www.metartec.com or alternatively call GB Tel: 0845 64 39 772 NI Tel: 0845 50 40 444
